

Mark Bohlin - Alabama

Mark Bohlin is the General Manager of Perdido Bay Water, Sewer and Fire Protection District in South Baldwin County Alabama. He has been serving in this position since 1998. In this capacity, Mark has set and achieved many innovative goals for the Water District that he serves. Some of these achievements include implementing a touch-read meter change-out program, GIS mapping of the Water District, hydraulic modeling of the Water District, modernizing billing and collecting software and procedures and integrating all of these areas of the operation of the water district so that they work in conjunction with each other. Mark takes great pride in utilizing new and innovative technologies and techniques in the operation of the Water District.

Mark is a Grade IV water operator with the State of Alabama and State Certified Electrician. He served four years in the United States Air Force as an Aerospace Ground Equipment Technician. Upon completion of his military career Mark worked as a Plant Electrician with Hunter Industries in San Marcos, Texas, served as Instrument Controls Technician with General Development Utilities in Palm Bay, Florida, and served as Operator/Manager of Hawk Pride Mountain Water System in Tuscumbia, Alabama.

Mark has attended the Community College of the Air Force, University of Florida TEEO Center, Troy State University and Columbia Southern University.
