

Lee G. Spencer - North Carolina

Lee is a Regional Engineer with the North Carolina Department of Environment and Natural Resources Division of Environmental Health, Public Water Supply Section. Lee and his staff are responsible for the supervision of the Safe Drinking Water Act in 15 counties in northwest North Carolina. Their objective is to ensure that safe, potable water, available in adequate quantities, is provided to the residents and visitors of the state served by public water systems. Lee is a Professional Engineer, a Civil Engineering graduate of North Carolina State University, a member of the North Carolina American Water Works Association, a liaison board member with the North Carolina Rural Water Association, and a member of the North Carolina Waterworks Operators Association. Lee has been with the State of North Carolina 18 years, and with the Public Water Supply Section 10 years.
